\$95 per Month and No Setup Fee

I provide one service. I take care of my client's ISNetworld accounts so they never have to worry about it.

Here are the details about my service:

- Setup your entire ISNetworld Account
- Provide your company an ISNetworld compliant safety manual.
- Provide and upload safety programs as requirements change.
- Keep the Questionnaire portion of your account up-to-date.
- Create and upload OSHA logs for your company.
- Assist in having new clients added into your account.
- Upload your insurance certificates.
- Apply for an insurance variance (this is a request for lower insurance coverage requirements) for your company to lower your insurance premiums.
- Upload your EMR certificate.
- Add employees into your account so that they can complete their site specific online training.

In short, I will take care of your entire ISNetworld account so you never have to worry about it.
