\$95 per Month - No Setup Fee and No Contracts

I provide one service. I take care of my client's ISNetworld accounts on a permanent basis, so they never have to worry about it.

Here are the details about my service:

- We will get your company the top grade possible in your ISNetworld account, guaranteed.
- When ISNetworld adds new requirements into your account, we will take care of it automatically.
- When OSHA changes their regulations, we'll re-write the safety programs and upload them into your ISN account.
- We will provide you an updated safety manual every year.
- We will login to your ISNetworld account every week and make sure that your ISNetworld account stays 100% up-to-date and in great shape.
- No hidden fees, no additional fees of any kind. \$95/month is all you will ever pay.

Give me a call and I will be happy to answer any questions you may have about ISNetworld and our services.
