

ISNetworld® Compliance

Lightning Fast

www.SafetyManualToday.com

Hire us today, and your ISNetworld® account will be 100% complete by the time you wake up tomorrow morning.

Guaranteed

24 Hour Turnaround – No More Lost Opportunities
100% Risk Free ISNetworld® Services

You Won't Need To Spend A Single Minute Working On Your ISNetwork® Account

We are going to take care of everything. I'll have a couple of company specific questions for you.

But that is the extent of what you will need to do. We'll handle everything else and when we are done, your ISNetwork® account will be 100% complete and in compliance.

I Have Personally Setup Thousands of ISNetwork® Accounts Over The Last 12 Years

If were not the best at ISNetwork®, I don't know who is.

We specialize in ISNetwork[®] services. Meaning, that is basically all we do.

After 12 years of being in business and over 500 clients we know exactly what to do to get your company the top grade and fast.

Pay Us After We Setup Your ISNetwork[®] Account

We will setup your entire ISNetwork[®] account, BEFORE, we email you our first invoice. And if you are unhappy with our services for any reason, I'll delete the invoice and you pay \$0.

This makes using our ISNetwork[®] services 100% risk free.

73% Of Our Clients Get Their ISNetworld® Account and Our ISNetworld® Services for Free

This is how it's done.

Ask your client if they would agree to a slight increase in your rates to cover your ISNetworld® expenses.

73% of our clients have told us that their client agreed to the price increase to cover all ISNetworld® expenses.

That means for 73% of you, ISNetworld® and my services are free. And for the rest of you. Don't worry, this won't be the only client in your ISNetworld® account.

Once you get that second client to connect to your account, ask them the same thing. A client will eventually agree to your slight price increase to cover your ISNetwork® expenses.

Your Clients Problem Will Benefit Your Business

Your client has mandated they will only hire contractors that are ISNetwork® compliant. And this is why 73% of them agree to a price increase to cover your ISNetwork® expenses.

They need contractors to work for them. And these contractors must be ISNetwork® compliant.

And there are over 1,000 different companies that require ISNetwork® to work for them.

Our Fees to Manage Your ISNetworld Account®

We charge a one-time \$1,000 fee to setup your ISNetworld® account.

And then \$1,200, every six months, to keep your ISNetworld® account up-to-date.

ISNetworld® loves to add additional requirements into all contractor's ISN® accounts on a routine basis.

Because of this.

We'll log into your ISNetworld® account, every week, and make sure it stays in compliance so that you don't miss out on any work.

But in addition to setting up your ISNetworld® account, we'll supply your business with additional items that you must have.

**Without an ISNetworld® Compliant Safety Manual
ISNetworld® Will Give You a Grade of "F"**

We are going to supply an ISNetworld® compliant safety manual to your business for free. (\$1,500 value, average cost from our competitors).

And we are going to create this safety manual in a way so that you can use it for your clients outside of the ISNetwork® network.

And if you are ever audited by your insurance agent, they will want a copy of your safety manual.

We'll even put your company logo on the cover.

ISNetwork® Requires Training Documentation for You and Your Employees

Part of ISNetwork® requirements, is that you and your employees will need training in a long list of different topics.

To save you time and the expense to pay for this training, we will supply you documents that you and your employees can read to train yourselves. (Value \$1,500, average cost for a safety trainer for a day and paying your employees for the day.)

We'll Make Your ISNetworld® Account as Profitable as Possible for Your Business

ISNetworld® allows you to have as many clients connected to your account as you want. At no extra cost.

To help our clients maximize the profit from their ISNetworld® accounts, we provide them, for free, a list of all the companies across the United States that require an ISNetworld® account to work for them.

There are over 1,000 of them. (\$199 value).

ISNetworld® Will Require OSHA Logs for Your Business For The Last 3 Years

Even though you may not be required by law to have OSHA logs, ISNetworld® will require them of your business. Without them, you will have a grade of “F” in ISNetworld.®

But we will be happy to create them for you for free. (\$250 value, industry average cost to create OSHA logs.)

We Limit Our Total Number of Clients for Two Reasons

First, big companies are invariably bad at what they do. McDonalds is the biggest restaurant on the planet, but nobody above the age of 10 will argue their food is any good.

We don't want to be big.

We are very happy with being the best.

Second, the phone number on this website is my personal cell number. When you call it, what you will hear is, "Hello, this is Conrad Cooper, how can I help you."

Call our competition and you get an automated answering machine that tells you to press 1 for this or press 2 for that.

As of 7/20/2023, we are at 83.5% of our capacity.

Call Me Today and Your ISNetworld Account Will be 100% Complete by the Time You Wake Up Tomorrow

- ISNetworld® compliance in less than 24 hours.
- We will do 100% of the work, you won't have to do a single thing.

- I have setup thousands of ISNetwork® accounts and I guarantee you the top grade possible.
- Pay us after we setup your ISNetwork® account. 100% risk free services.

You can either become ISNetwork® compliant this week, by calling me now, or you can think about it and become ISNetwork® compliant in a couple of months, after your business has missed out on some opportunities.
